Dr. Jack Shonkoff, Professor of Child Health and Development at Harvard University, shares his important play tips to boost your child's development. Developmental psychology tries to understand how children learn and grow. World-renowned cosmologist Neil deGrasse Tyson shares one profoundly simple piece of parenting advice about a child's innate abilities. This 'Brain Builders' video explains how experiences in the first years of our lives affect how our brains form. Science tells us that the brain is highly plastic and can be shaped by the environment. Hi, I'm Jim. As a teacher with over 15 years of experience, I've helped many children. If you could do one thing - the most important thing - to influence the life of a young child, what would that be (it's likely not what you think). Being 'gifted' often feels far from a good thing, when you're the one living it. And yet the myth persists that 'gifted' is an elitist and exclusive label. What if the secret to helping kids thrive isn't more pressure, but more joy? Too often, learning feels like a chore. But when you're a parent, you know that. By loading kids with high expectations and micromanaging their lives at every turn, parents aren't actually helping. At least, that's what I think. 1-2-1 Private Tuition with Daniel: Schaffer & Emerson (1964) conducted an
